CITY NEWS

Joseph Arthur Martin, who joined the navy last March, writes that he has been transferred to the battleship St. Louis, and that the ship was scheduled to leave Bremerton this morning at 5:30 o'clock, on the way to Honolulu, after a stop of a few days at San Francisco. He was graduated from the Salem high school in 1914. With him on the St. Louis are two Salem boys, Ray Anderson and Roy King. Upon the rolling waves seem to please the boys as they are well satisfied and enjoying life.

The excursion of the Salem street railway employees postponed from the 16th, will be held Sunday, July 23. This excursion will include not only the employees, but their families and friends and the Salem street railway band of 24 pieces. The special will leave the S. P. depot at 6:30 o'clock a. m., allowing the excursionists six hours at Newport. The train will arrive in Salem about midnight and arrangements have been made to have the Commercial street and State street cars meet the train.

This information is for those who ride on city street cars in Salem. For the next ten days, they will be allowed to enter the street cars on the far side of the street. After August 1, the Salem Street Railway system will adopt the near side stop, which means that the car will stop before crossing the street. This is in accordance with the most up to date street car practice in the east, and is adopted to reduce the general hazard of accident.

Now that South Commercial street is getting ready for the improved conditions in the way of paving, while this is being done, an effort will be made to induce the street railway and the electric light company to use the same poles. At present, these two companies have their own poles, but they are set close together. The people living on Commercial street south of Mission street believe the general appearance of things would be improved if there was a single instead of twin poles about so often.

The American flag will soon be flying from the 70 foot pole on top of the I. O. O. F. building. The trustees of the lodge recently decided to place a rope on the pole in order that a flag might be raised, but the difficulty was to find a man who could shin up a pole 70 feet high, six inches in diameter at the base, and galvanized.

JOANNA JAMES TO PLAY "YUM-YUM"

Young Singer With Remarkably Fine Voice Will Make Her Debut in "The Mikado."

This picture shows "Yum-Yum" preparing her toilet for her wedding. There is an old adage that "true love never runs smooth." This is most surely the case with Yum-Yum. The play opens on the day that she is to be married to Ko-Ko, her guardian, a cheap tailor who has been raised to the exalted rank of Lord High Executioner, but the man who has really won her heart is Nanki-Poo, the son of the Mikado, who, disguised as a wandering minister, is singing ballads in the tea gardens of the town of Tipu. Nanki-Poo in a moment of confidence tells his rival that he is in love with his ward. Ko-Ko informs him that he loves her himself, and is very glad to have his opinion backed up by such competent authority, but does not see why he should give up his prospective bride for a wandering minister. Thereupon Nanki-Poo makes a bargain with "cheap and chippy chopper," that in one month he will submit to having his head cut off. Ko-Ko agrees to this and then the fun begins to develop fast.

and furious, finally winding up by Nanki-Poo winning Yum-Yum and of Ko-Ko being given the choice of winning Katisha (a strong minded old maid of the Mikado's court) in 10 minutes, or in the event of his failure of being boiled in oil. Ko-Ko's hurry up love scene where he wins the hand of Katisha by singing the pathetic story of a little bird that died of a broken heart, and committed suicide by casting himself into the "billow wave," in the

Finally George Beatty, a carpenter working on the Wexford building, who was formerly in the navy, volunteered to climb the pole, which he did to an admiring and enthusiastic audience yesterday afternoon. The trustee of the Old Fellow lodge will buy the flag at an early date.

Tom Ordemann will sing, "Poppy Time in Old Japan" at the band concert to be given at Willson park this evening. The program is as follows: March, "The Southerner" Alexander; overture, "Orpheus"; Offenbach; waltz, "Bridal Blushes"; Schmid; clarinet solo, Zigeunerweisen Sarasote, played by Hans Meyer; medley, Reimke's Hits, No. 16, arranged by Lampe; vocal solo, "Poppy Time in Old Japan," Tom Ordemann; comic opera selection, "Robin Hood"; De Koven; novelties (a) request, Simplicity, (b) "A Garden of Dunes"; Mercutio characteristic, "Whispering Flowers"; Von Blom; march, "Barium & Bailey's Favorite" King.

At the next meeting of the directors of the Commercial club, Benjamin Brick, director of the publicity and tourist department, will submit plans towards advertising the proposed valley loop of 128 miles from Portland to Salem. The loop passes through Tigard, McMinnville and Dallas on the west side, on to Salem. From this city, the return is on the east side by way of Oregon City. Mr. Brick will propose the appropriation of \$100 towards advertising the loop, co-operating with other cities interested. One of his plans of attracting attention is to arrange for an automobile day with Portland whereby a certain day will be known as "Valley Loop" day and arrange for hundreds of cars to make the trip, with a proper entertainment of the tourists by the Commercial club.

'FATHER, do you suppose we could afford

to rent that new cottage next to Grace and Billy?"

"Huh! Afford it? Why, our garage cost more than the whole house. Have you gone crazy?"

"I don't care what it cost. Grace says it's just like hers and if it is I want to live in it."

"Well, for the love of—say! may I ask just what is the matter with this simple, unpretentious, little hundred thousand dollar dwelling?"

"You may ask, and it will give me great pleasure to tell you. I haven't a decent floor in the house. My wall paper and hangings are old fashioned. Most of my lighting fixtures are loose or too tight. I don't believe my plumbing is safe. My old gas stove is about as efficient for cooking as a kerosene lamp. And father! The hot water service that Grace has! You know yourself that we don't have hot water before nine any morning. There's never enough for the laundry, and as for getting hot water at night, we might as well be living in a tent. And to think that all Grace has to do to get a cupful or a hundred gallons of steaming hot water is to turn a faucet—any time of day or night!"

"How does she do it?"

"They have a Ruud Automatic Hot Water Heater connected up directly with the water and gas pipes. She never gives it an instant's thought or attention. It's the same as having hot water piped into your house like gas."

"Well, why don't you get one?"

"Oh! thank you. I'll telephone in the morning to the Gas Company."
